The C-Bin is a contemporary recycling bin, combining the Torpedo and Box Cycle range to feature a hinged lift up lid and removable body. This stylish range of bins is designed with a single hinged frame and body, manufactured from galvanised steel, primed and powder coated in a choice of Wybone RAL colour to offer excellent corrosion resistance.

- Option for manufacture from galvanised steel or transparent plastic bodies.
- Full range of general & recycling waste streams with matching A4 Vinyl artwork
- Gas strut assisted sack retaining lid
- Steel message board with optional poster clip frames for interchangeable artwork
- Aperture flap which improves fire protection and keeps smells contained

(For full options please see separate options sheet or contact us)

Use this page to plan your customisation options.

6

## Optional Extras

Message Board  
Single | £29.99  
Double | £44.99  
Triple | £64.99  
Quad | £94.99

Galvanised Steel message board, can be used for advertising or signifying waste stream.

Poster Clip Frames  
Single | £24.99  
Double | £49.99  
Triple | £74.99  
Quad | £99.99

A4 Clip frames can be added to the backboard or bodies to allow for interchangeable artwork.

LiftUp Flap  
Per Lid | £41.50

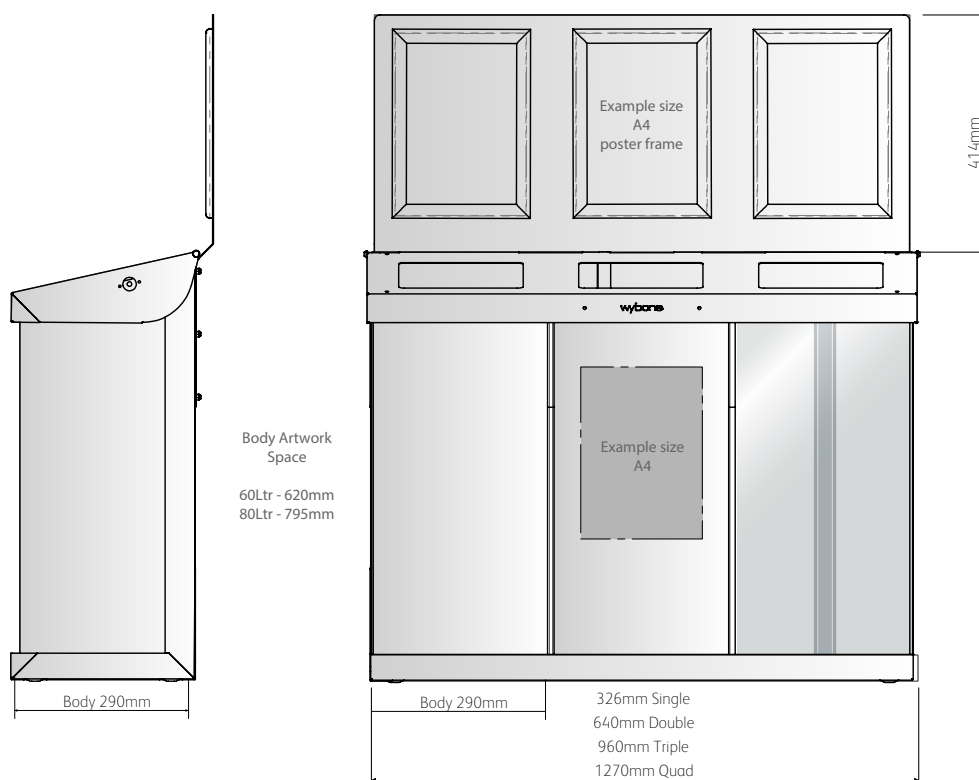

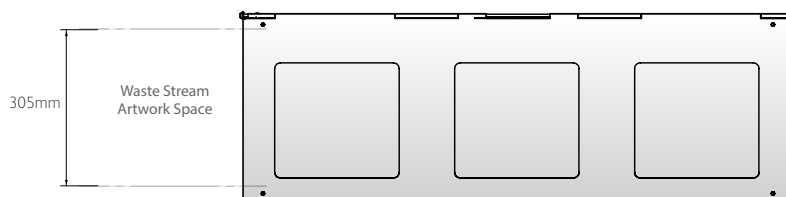

Lift Up steel flap, useful for improving fire prevention, as well as keeping in smells, particularly for General & Food Waste streams.

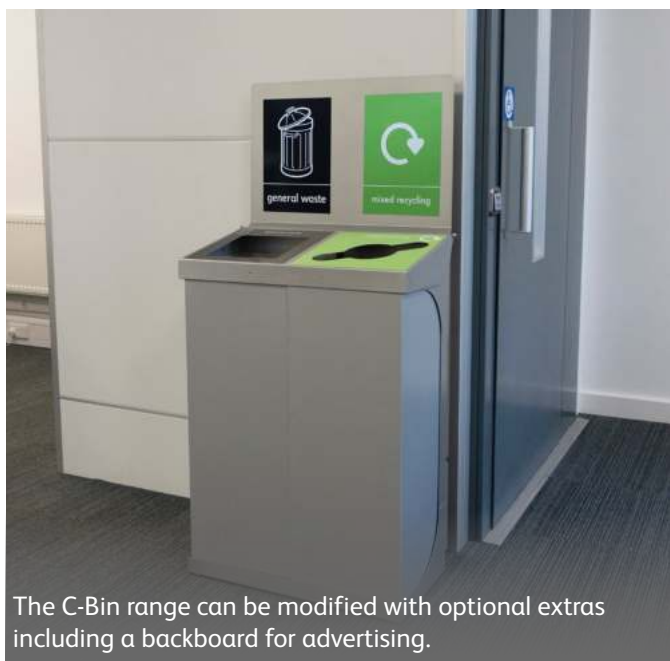

Lockable Lid  
Per Lock | £14.99

Push Locks can be added to any of our lids to limit access, ideal for confidential waste units. Single units use 1 x Lock, all other configurations use 2 x Locks.

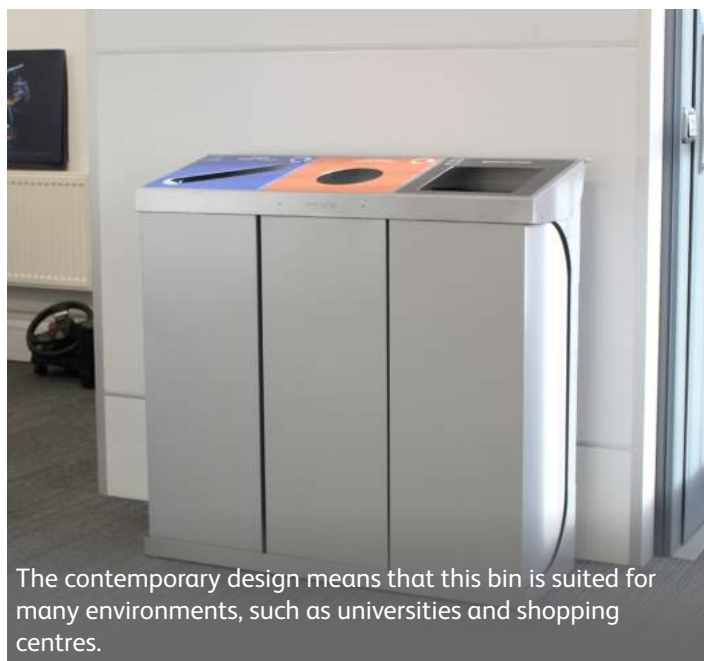

## Customisation Dimensions

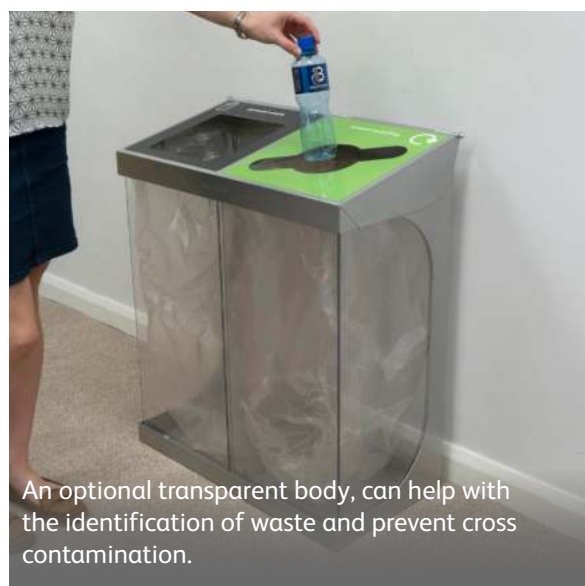

The C-Bin range can be modified with optional extras including a backboard for advertising.

The contemporary design means that this bin is suited for many environments, such as universities and shopping centres.

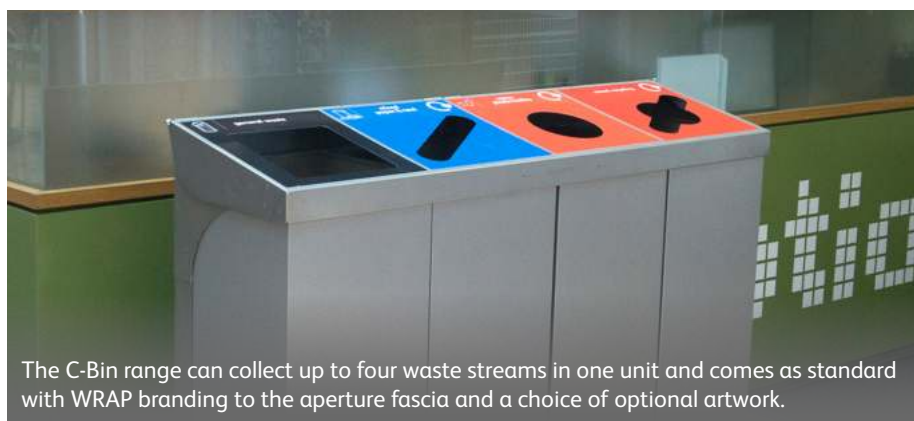

The C-Bin Recycling range is manufactured from galvanised steel, making it robust and corrosion resistant.

An optional transparent body, can help with the identification of waste and prevent cross contamination.

The C-Bin features a gas strut assisted lid to keep it open when emptying and cleaning is taking place.

The C-Bin range can collect up to four waste streams in one unit and comes as standard with WRAP branding to the aperture fascia and a choice of optional artwork.
