RG Grit Bin Range

The Wybone RG Glass Reinforced Plastic Grit Bin is a single skin, durable grit bin with a smooth easy clean finish, suitable for sand, grit or salt.

The grit bin is UV stabilised to ensure there is no discolouration or deterioration through long term exposure to the elements which means that they can remain in-situ all year round.

Suitable for both residential areas and commercial organisations

- Available in yellow as standard but is also available in a range of alternative colours.
- Comes complete with vinyl GRIT or SALT text in black as standard.
- The sloped lid prevents heavy snow and ice from building up on top of the bin
- Fitted with stainless steel hinges to allow the front opening door to be completely lifted and leaned back on the top of the unit; this makes filling and emptying the unit a simple task.

Technical Information

1YR PARTS & LABOUR
GUARANTEE

All of our products come with a 1 year parts and labour guarantee as standard.

Construction

Glass Reinforced Plastic single wall construction using 'class O' fire retardant resin. The nature of the glass reinforced plastic ensures that the salt and adverse weather will not corrode the unit.

For bespoke requirements send an email to sales@wybone.co.uk

Each unit is expertly manufactured from glass reinforced plastic, giving a level of durability and toughness that can't be found in cheaper plastic units.

Fitted with stainless steel hinges to allow the front opening door to be completely lifted and leaned back on the top of the unit; this makes filling and emptying the unit a simple task.

Hasp and Staple fittings are available for areas where units need to be secured.

The smooth, wipe-clean surface of the grit bin makes it easy to maintain, and the single-skin glass reinforced plastic material is ideally suited for grit, sand or salt storage.

This RG Grit Bin range from Wybone, is manufactured with style and durability in mind and can be made in a variety of colours to suit your requirements.
