Heritage Range

Heritage Range

Our heritage is a part of who we are.

Sometimes it's good to look at the past. And with our heritage products, you don't need to look far.

The Heritage Seat and Picnic Table are manufactured from 5mm galvanised steel and fixed together with heavy-duty, stainless steel, anti-tamper bolts.

That means you're guaranteed ultimate durability without sacrificing comfort.

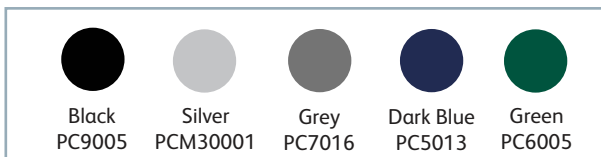

Choose How You Want Your Heritage Range

Customise your Heritage Bench or your Heritage Picnic Table with the frame colour and wood finish.

1

Frame Colour

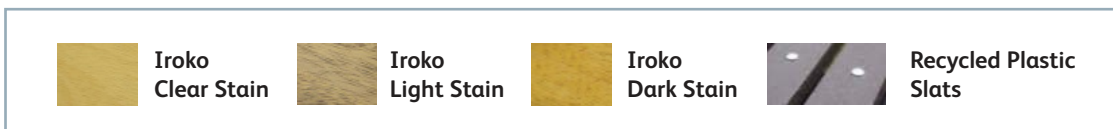

Our colour palette is handpicked to give our heritage range its best look at no extra charge.

2

Wood Finish

From multiple iroko slats to choose from, as well as a recycled plastic slat option, our range of wood offers a beautiful finish.

The More You Know...

The Heritage Seat

Where Could I Place The Heritage Seat?

These Seats were made to compliment the area it resides in. For that reason, we suggest having this Seat on heritage sites, in parks, picnic areas and coastal areas.

How Do I Install This Seat?

No need to worry - the legs of this Seat are fitted with pre-drilled ground fixing plates. We suggest using RAWL bolts to ground fix the bench with ease.

Want To Find Out More?

If you like what you see, you can view our Heritage Seat on our [products page](#).

The Heritage Picnic Table

Where Could I Place The Heritage Picnic Table?

Made for families and friends in mind, you can also seat these tables on heritage sites, in parks, picnic areas and coastal areas.

How Do I Install This Table?

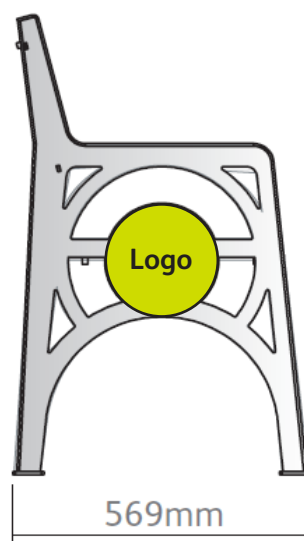

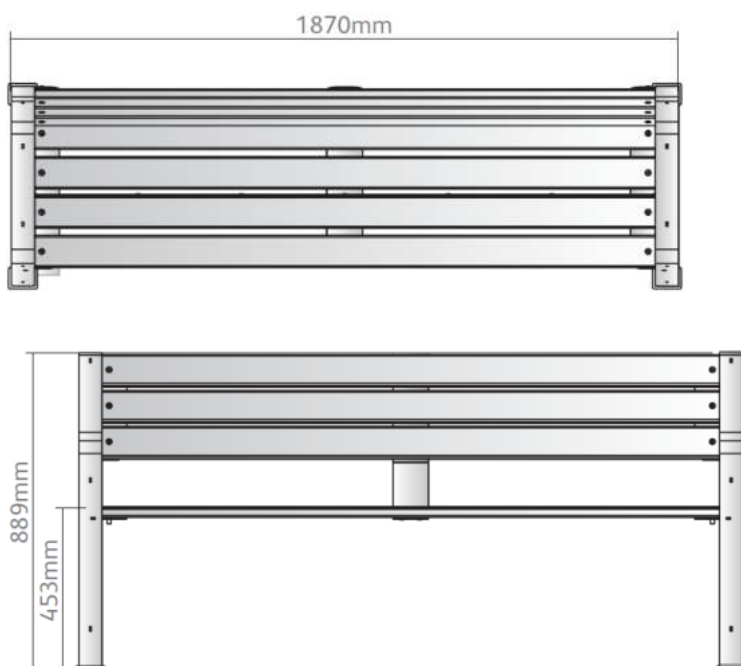

Just like the Seat, the legs of this table are fitted with pre-drilled ground fixing plates. We suggest using the same bolts.
