Heritage Contour Bin

The Heritage Contour Bin is manufactured using glass fibre composite and Iroko wood, offering long life and a stylish design for modern and traditional locations.

- Manufactured using high impact strength glass fibre for excellent durability
- Front-opening door made from exotic, FSC certified Iroko wood, offering a sophisticated design that doesn't compromise on durability
- Our glass fibre litter bins are still on location 40 years later, making the Heritage Contour Bin extremely cost effective
- Choose from a 112-litre or 224-litre unit with a smooth or textured body finish and clear, light or dark stain door colour

The Heritage Contour Bin is manufactured using glass fibre and Iroko wood for a stylish, durable appeal.

This bin is also available as a double unit, increasing waste capacity and encouraging waste segregation.

Empty the bin with ease with the front-opening door and a pull-out liner.

Waste disposal is easy thanks to the large open aperture. The secure internal liner means waste doesn't fall down the sides of the liner.

Working in tandem with our Heritage Range, the Heritage Contour Bin is purpose-made for modern and historic parks and towns with high footfall.
